“ I worked with Wayne during, I believe, the early to mid 2000's at Tricom Plumbing, Burleson, Tx. He was one hell of a guy and definitely one of the most easy cats to get along with. It didn't matter if we had builders or bosses ranting and raving, he was always so chill. Didn't let anything bother him, ya know? Had a lot of good times with him. The world is definitely a sadder place now that he's gone.

“ Sandy, Ervin and Melissa,
Our hearts go out to you. As we talked the other day...
It is not natural to bury your child.
We love you guys. Call if you need anything.

“ My niece Christine Oliver went to school with Wayne for a short time. He would come to walk her to school.

I also remember seeing him for the first time a few years later, when we all camped out by the lake. He giggled most of the night.

And of course we used to have a lot of fun at the family get together's at Beckie's house in the summers for reunions and holidays. Wayne was always offering to get us something. Very kind all the time. He will be loved & missed by so many. My thoughts & prayers are with all his family & friends.

“ I always looked forward to you guys coming to Missouri so I had a extra 3-wheeler buddy. And I looked forward to seeing a message just about every morning from Wayne since we have been on Facebook or comments on each other's post, I'm going to miss that and I was so wanting to see you this summer a chance that won't happen now.

“ I went to school with Wayne & though we knew each other, it wasn't until he moved back to the Crowley area that we became friends. He was one of a kind! One of the most genuine people I have been lucky to get to know. He always had a kind word, could make you laugh at just the right time and always encouraging if you needed it. He will be greatly missed. My thoughts and prayers are with the family. - Amanda LaCroix
