“ What can I say about my mom other than she'll be missed tremendously by her children and family. I learned so much from her from an early stage from her sewing skills with costumes and the items for the church to teaching me how to quilt. She was so creative and her imagination was out of this world. She came from a creative family so it definitely came through to each of her kids. Our loving parents took us camping every year and we learned all about nature no matter where we were. We will continue that tradition with our own families and she'll be there with us every step of the way. I will always remember the little things and big things they taught us that are with me still like how to be a good person and to help those who need it. She worked so hard all her life to provide as best she could and never complained. I'm so glad she was part of the Ya Ya's. I love you Mom.
Your loving daughter, Debbie

“ My Mother was such a kind, thoughtful and intelligent woman. She provided us with a wonderful childhood full of wonderful memories. She was very creative and she shared that with all of us. Our parents spent much time with their children such as taking us camping, swimming, roller skating, and teaching us the beauty of nature. They also taught us to be honest, good people. I was blessed to have such a wonderful Mother. Thank you, Mom!
